I am entering my yard for the ecoscape contest because I have done the following landscape practices.

(Check all that apply)

- Added mulch for weed and evaporation protection
- Added low water or native plants that can sustain drought periods
- Minimized lawn area or no supplemental watering of existing lawn
- Added one or more rain barrels for a non-potable water source
- Designed my landscape with colour and texture to attract the eye
- Minimized use of fertilizers and pesticides

More details about my yard:

- I have attached photos of my ecoscape yard to watersaver@strathcona.ca
- I understand that the winning ecoscape yard will have a full colour photo and may list the last name of the winning household in the Sherwood Park News.
