All multi-family buildings and complexes within Strathcona County must comply with Waste Management Bylaw 39-2014. This Bylaw states that a) waste disposal, and paper or cardboard recycling must be accessible to all residents and b) current levels of waste diversion efforts must be maintained or upgraded.

Strathcona County Utilities collects the information to confirm the bylaw is being adhered to, as well as to find out if there are any opportunities for education and improvement. Based on the information given, we can provide site-specific suggestions and ideas on waste reduction and cost savings.

It is important for us to know how waste, recycling and organic materials are handled once they leave a complex or building. We want to ensure these items are going to their intended destination and that information given to the public about what happens after the bins are tipped is accurate. We value your detail and feedback in this area.

Applicant information

Applicant name (Company) _____

Contact name (if different than applicant) _____

Address _____
Street and number City/town Province Postal code

Contact phone number _____ Fax number _____

Email address _____

A) Waste

Do you use front load waste bins in Strathcona County?

Do you tip waste carts in Strathcona County?

Do you handle manual collection of waste in Strathcona County?

Where does the waste go once it is tipped at the building or complex?

B) Do you collect organics waste in the County? yes no

If yes, complete section B otherwise continue to section C

Do you use front load organics bins in Strathcona County?

Do you tip organics carts in Strathcona County?

Do you handle manual collection of organics in Strathcona County?

Where does the organics go once it is tipped at the building or complex?

C) Recycling

Do you use front load recycle bins in Strathcona County?

Do you tip recycle carts in Strathcona County?

Do you handle manual collection of recycling in Strathcona County?

What items do you accept in a commingled recycling bin?

Where do the recyclables go once it is tipped at the building or complex?

When educating the public we like to give examples of what recyclables are made into once they leave their residence. Can you list some examples of end markets for some of the recyclables you process? This does not need to be specific, just an idea for public education.

Thank you for your time and for helping us build a more environmentally conscience Strathcona County. If you have any other comments, ideas or concerns please let us know.
