I. Introduction and Overview of this Report

This report presents the results of the Strathcona County Census¹ that was conducted on May 1, 2018. An up-to-date census count helps the County obtain federal and provincial funding that goes toward services for residents. The census count serves as a foundation for planning new community services and enhancing existing ones. Without the correct census information we cannot plan community projects such as schools, libraries, police stations, health and childcare, and transportation. An accurate count reflects the growth of the County and ensures that maximum per capita grants are received. Participation in the census by Strathcona County residents was voluntary.

The census data is also important to businesses that operate throughout the County. The information contained in this report can assist businesses in deciding where to locate factories, shopping centers, movie theaters, banks and offices -- activities that often lead to new jobs while enhancing the quality of life in Strathcona County.

Residents had the option of answering the census online, rather than being interviewed. Overall, 51.8% of County households used this option.² The remaining 48.2% either contacted the municipal census office by telephone to complete the survey or were interviewed at their homes by one of the census enumerators.

Questions asked in the 2018 census include the following:

- Population numbers and distribution within Strathcona County
- Aspects of dwellings within Strathcona County as of May 1, 2018 (including type of dwelling, vacant vs. occupied status, number of dwellings under construction, ownership status and location of dwellings)
- Household Internet access and satisfaction with Internet speed (*new for 2018*)
- Number of vehicles in the household (*new for 2018*)
- Enumeration area breakdowns
- Length of residency
- School residency of residents
- Citizenship status
- Gender & age of residents
- Marital status
- Employment or student status
- Driver's license status (*new for 2018*)
- Volunteer status (*new for 2018*)
- Primary mode of transportation (*new for 2018*)

¹ Strathcona County typically conducts a municipal census in years when a municipal election or a Federal Census does not occur.

The data presented in this report presents overall totals for Strathcona County, as well as geographic breakdowns for:

- Sherwood Park, which is designated as the Urban Service Area in the remainder of this report; and
- The rural portion of Strathcona County (other geographic areas in the County, which includes farms, country residential communities and other hamlets). In this report, all of the rural components of Strathcona County are designated as the Rural Service Area.

Specific breakdowns for particular regions in the County, as well as different groupings of demographic data derived from the 2018 census (within reasonable limits) are available upon request. Strathcona County census data by ward, neighbourhood and subdivision is available, and other groupings of demographic data can be requested by emailing gismaps@strathcona.ca. For other inquires, please contact Dr. Phil Kreisel, Communications at 780-464-8252 or via e-mail (phil.kreisel@strathcona.ca).

This report was officially released on August 30, 2018.

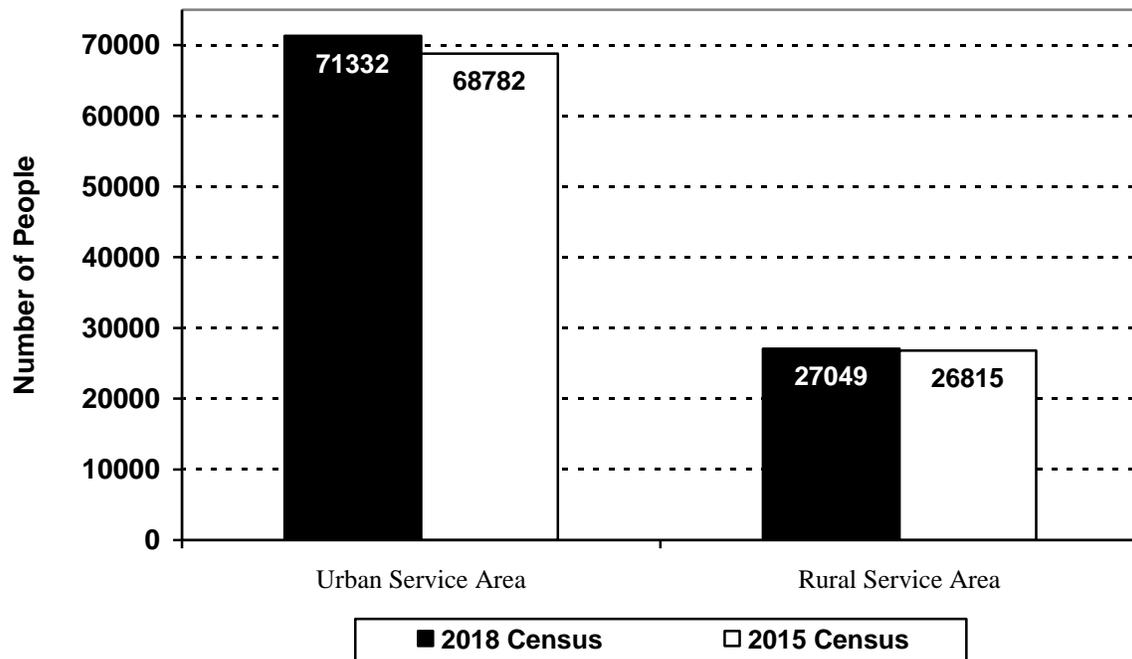

² The online participation was 0.4% higher than the previous (2015) municipal census.

II. Results

A. Population Breakdowns

- The total population in Strathcona County was 98,381 in 2018. In 2015, there were 95,597 people and 92,403 people resided in the County in 2012.
- There has been an increase of 2,784 people in Strathcona County since the 2015 census, which is a growth of 2.9% over 3 years.
- The population distribution for the rural and urban portions of Strathcona County in the year 2018, along with 2015 statistics is shown in Figure 1.

Figure 1
Population Distribution in Strathcona County
(2018 and 2015 Comparisons)

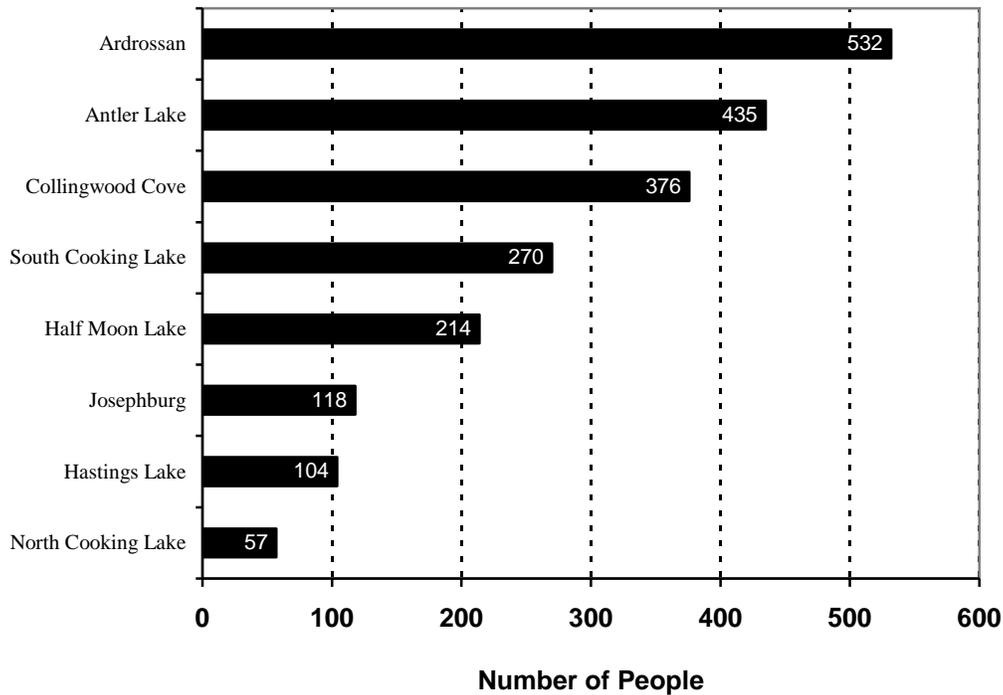

Other Census Highlights – Population

- In the Urban Service Area, the population has increased by 2,550 people, which is a 3.7% increase from 2015. There are now 71,332 people living within the Urban Service Area as of 2018.
- Between 2015 and 2018, the population in the Rural Service Area has increased by 234 people, which is a 0.9% increase since 2015. The 2018 rural population total is now 27,049.

- A breakdown of population within the rural hamlets of Strathcona County can be seen in Figure 2 below. Due to redefinition of hamlet boundaries, no comparisons are done between 2015 and 2018.

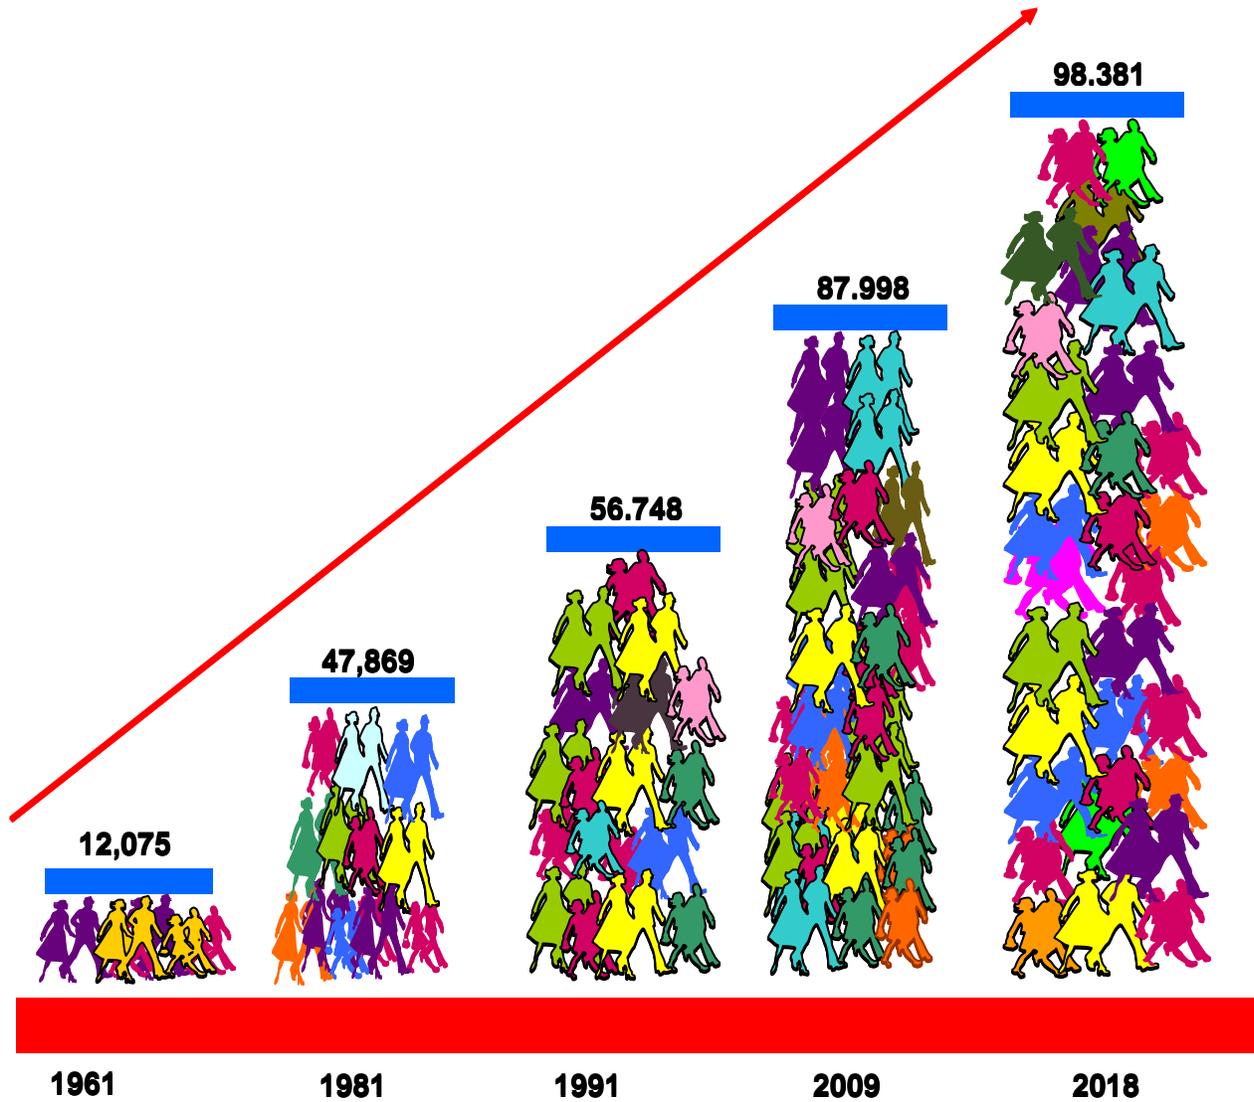

Figure 2
2018 Population of Strathcona County Rural Hamlets

- Overall, of the 27,049 residents living in the Rural Service Area, 2,106 live in the 8 hamlets noted above. 17,908 live on country residential estates and 7,035 live on farms (which include Hutterite colonies).
- A visual depiction of the changing size of Strathcona County since 1961 is shown in Figure 3. It can be seen that the size of the County has increased dramatically since 1961. The County has more than doubled its size since 1981. Within the last 18 years (since 2000)³, it has increased in size by 42%.

³ In 2000, Strathcona County's official population was 69,268.

Figure 3
Population Growth in Strathcona County (1961 – 2018)

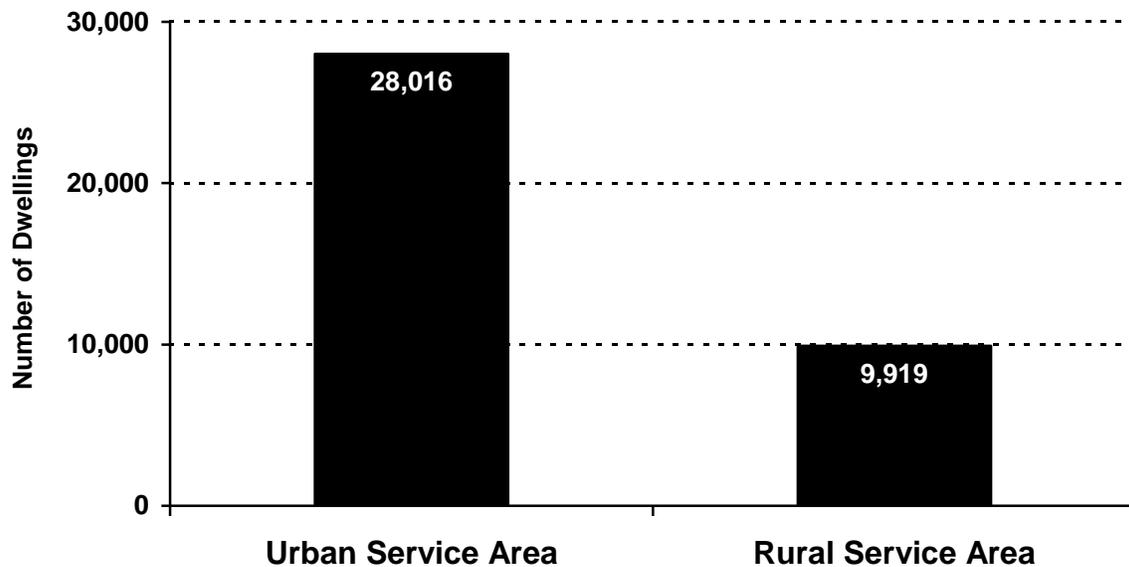

B. Household Statistics

Number of Dwellings

In 2018, the total number of dwellings in Strathcona County is 37,935. The total number of dwellings in the rural and urban portions of Strathcona County is depicted in Figure 4. The numbers shown in this figure is the combined total of occupied dwellings, vacant dwellings and dwellings that were under construction as of May 1, 2018.⁴

Figure 4
Total Number of Dwellings in Strathcona County in 2018

⁴ These numbers do not include vacant lots or non-residential structures.

Location of Dwellings throughout the County

A breakdown of where the dwellings are located throughout Strathcona County, along with a breakdown of the number of dwellings that are occupied, vacant or under construction is shown in Table 1.

Table 1
Dwelling Location by Status⁵ of Dwellings*

	Total N	Occupied Dwellings		Vacant Dwellings		Under Construction	
	N	N	%	N	%	N	%
Urban Service Area	28,016	27,340	74.1%	502	60.2%	174	81.7%
Rural Service Area	9,919	9,548	25.9%	332	39.8%	39	18.3%
Strathcona County Total	37,935	36,888	100.0%	834	100.0%	213	100.0%

* In this table, the symbol “N” refers to the Number of Dwellings. Percentages add up to 100% by columns.

Census Highlights – Dwelling Location

- This table presents a breakdown of the number of occupied and vacant dwellings throughout Strathcona County as of May 1, 2018. The percentages in this table depict the percentage comparison of the number of dwellings in the urban and rural regions of Strathcona County. For example, of the 36,888 occupied dwellings in the County, the majority of them (N=27,340 or 74.1%) are located in the Urban Service Area.
- The other two columns depict breakdowns of the number of vacant dwellings and the number of dwellings under construction. The percentages add up to 100% in each column.
- The majority of dwellings that exist throughout the County are occupied. As seen in Figure 5 on the next page (and in Table 2 on page 9 of this report), it can be seen that for the County as a whole, 97.6% of the dwellings are occupied, 1.8% are vacant, and 0.6% are under construction. A breakdown for the Urban Service Area and the Rural Service Area can also be seen in Table 2.

⁵ It should be noted that during the data collection process, although guidelines were provided on how to classify a dwelling, individual judgment calls were often made by enumerators as whether a dwelling was “vacant” or “under construction.” In this regard, it is possible that some dwellings classified as vacant should instead have been classified as under construction, particularly in new neighbourhoods. There were also instances where enumerators may have classified properties that were under construction as “vacant lots” due to very little activity on the site. The number of vacant lots throughout Strathcona County is not included in our data calculations, but is available upon request.

**Figure 5
Occupancy Patterns of Dwellings in Strathcona County
(2018)**

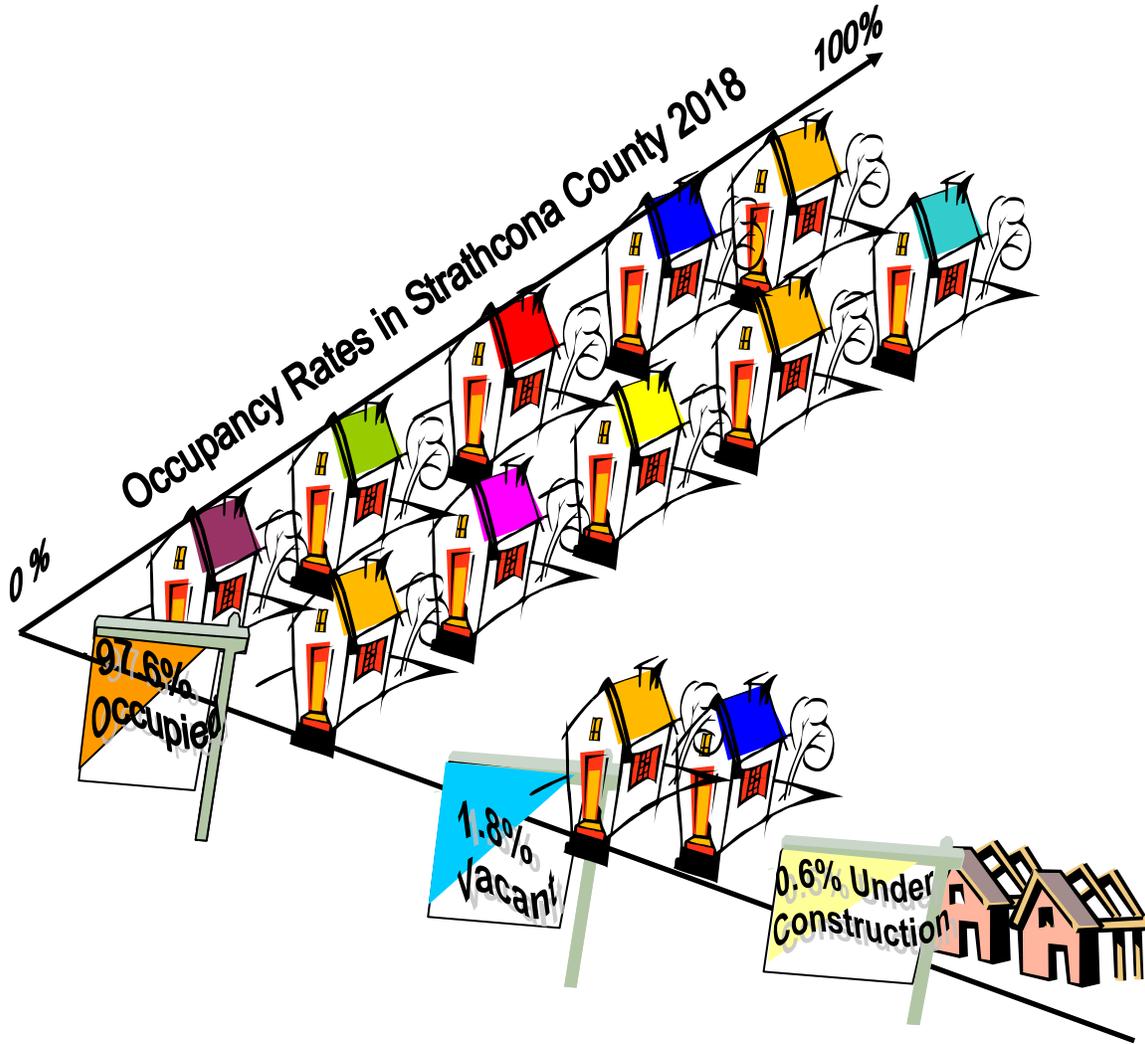

Table 2 presents a percentage breakdown of the status of dwellings by urban and rural parts of the County

Table 2
Status of Dwellings for Rural and Urban Areas in Strathcona County*

	Sherwood Park		Rural Service Area		Total - Strathcona County	
	N	%	N	%	N	%
Occupied Dwellings	27,340	97.6%	9,548	96.3%	36,888	97.2%
Vacant Dwellings	502	1.8%	332	3.3%	834	2.2%
Under Construction	174	0.6%	39	0.4%	213	0.6%

* In this table, the symbol “N” refers to the Number of Dwellings. Percentages add up to 100% by columns.

Census Highlights – Dwelling Location

- This table presents a breakdown of the number of occupied, vacant and dwellings under construction for the Urban Service Area, the Rural Service Area, and the total County. The percentages in this table depict a breakdown within each part of the County. For example, within the Urban Service Area, of all the dwellings, the majority (97.6%) **are occupied**, with a very small percentage either vacant or under construction. The percentage breakdown is very similar in the Rural Service Area as well.
- The other two columns in Table 2 depict breakdowns of the status of dwellings in the Rural Service Area and for the County as a whole.

Table 3 presents a breakdown of the status of dwellings within the Rural Service Area as of May 1, 2018.

Table 3
Dwelling Location by Status of Dwellings within the Rural Service Area*

	Total Number		Occupied Dwellings		Vacant Dwellings		Under Construction	
	N	%	N	%	N	%	N	%
Farm	2,831	28.6%	2,660	27.9%	155	46.7%	16	41.0%
Country Residence	6,164	62.1%	6,062	63.5%	86	25.9%	16	41.0%
Hamlet	924	9.3%	826	8.7%	91	27.4%	7	17.9%
Total Rural Service Area	9,919	100.0%	9,548	100.0%	332	100.0%	39	100.0%

* In this table, the symbol “N” refers to the Number of Dwellings. Percentages add up to 100% by columns.

Census Highlights – Dwelling Location within the Rural Service Area

- Within the rural parts of the County, dwellings can be located on farms, in a country residence or in a hamlet. For example, of the 9,548 occupied dwellings in the Rural Service Area, the majority of them (N=6,062 or 63.5%) are classified as country residences.
- The other two columns depict breakdowns of the number of vacant dwellings and the number of dwellings under construction within each type of rural classification.

Types of Available Dwellings

The type of dwellings available to people in Strathcona County is listed in Table 4, which include those dwellings that are vacant or under construction at the time of the census collection.

Table 4
Types of Dwellings within Strathcona County*

	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
Single Detached	29,112	76.8%	19,625	70.2%	9,487	95.6%
Row House	1,625	4.3%	1,625	5.8%	0	0.0%
Apartment Units	2,900	7.7%	2,898	10.4%	2	----
Duplex (Semi-Detached)	2,323	6.1%	2,298	8.2%	25	0.3%
Manufactured Homes	972	2.6%	739	2.6%	233	2.3%
Other Movable Dwellings	46	0.1%	25	0.1%	21	0.2%
Single Dwelling Attached to non-Residential Structure	248	0.7%	145	0.5%	103	1.0%
Suite in Single Detached	163	0.4%	122	0.4%	41	0.4%
Collective Dwellings⁶	497	1.3%	490	1.8%	7	0.1%
Total Number of Dwellings⁷	37,886	100.0%	27,967	100.0%	9,919	100.0%

* In this table, the symbol “N” refers to the Number of Dwellings available. Percentages add up to 100% by columns.

Census Highlights – Dwelling Types

- The majority of housing stock in all parts of Strathcona County is single detached dwellings.
- There are very few duplexes and apartments (and no row house developments) in any parts of the Rural Service Area. The majority of these types of dwellings are located in the Urban Service Area.

⁶ Collective dwellings include structures such as *nursing homes, senior citizen homes, Hutterite colonies and homes for challenged people (e.g. those with Alzheimer’s etc.)*. There are also a number of independent living apartments, where residents live in their own suite.

⁷ Please note that these totals exclude 49 dwellings in the Urban Service Area where enumerators were unable to definitively identify the type of dwellings that were under construction during the census.

Types of Occupied Dwellings

The types of dwellings occupied by residents in Strathcona County as of May 1, 2018 are listed in Table 5.

Table 5
Number of Occupied Dwellings within Strathcona County by Type of Dwelling

	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
Single Detached	28,534	77.4%	19,382	70.9%	9,152	95.9%
Row House	1,543	4.2%	1,543	5.6%	0	0.0%

Total Number of Dwellings	36,888	100.0%	25,489	100.0%	9,304	100.0%

* In this table, the symbol "N" refers to the Number of Dwellings currently occupied. Percentages add up to 100% by columns.

Types of Dwellings Unoccupied or Under Construction

The total number dwellings either under construction or vacant at the time of the census is broken down by type of dwelling and summarized in Table 6.

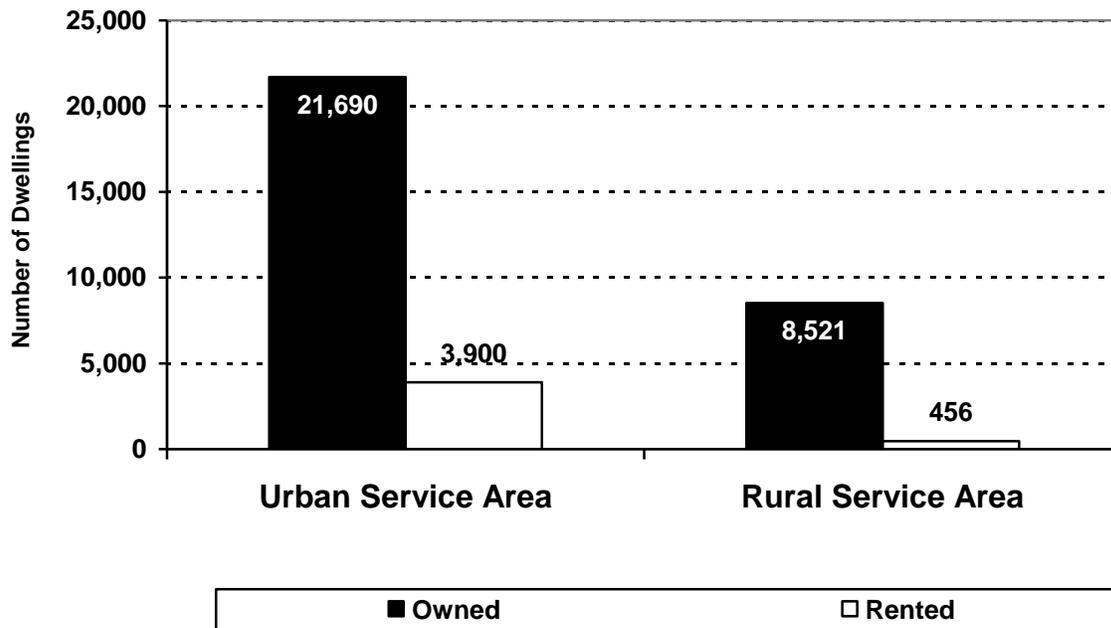

Table 6
Types of Dwellings within Strathcona County that are Vacant or are under Construction (2018)

	Total Strathcona County		Urban Service Area		Rural Service Area	
	Vacant	Under Construction	Vacant	Under Construction	Vacant	Under Construction
Single Detached	459	119	163	80	296	39
Row House	59	23	59	23	0	0
Apartment Units	199	1	198	1	1	0

Manufactured Homes	34	0	15	0	19	0
Suite in Single Detached	28	0	21	0	7	0
Other Movable Dwellings	2	0	0	0	2	0
Single Dwelling attached to non-Residential Structure	3	0	0	0	3	0
Collective Dwellings	8	0	7	0	1	0
Total Number of Dwellings	834	164	502	125	332	39

Ownership Status of Dwellings

The ownership status of dwellings in the rural and urban portions of Strathcona County is depicted in Figure 6. The numbers shown in this figure is the combined total of occupied dwellings, vacant dwellings and dwellings that were under construction as of May 1, 2018.

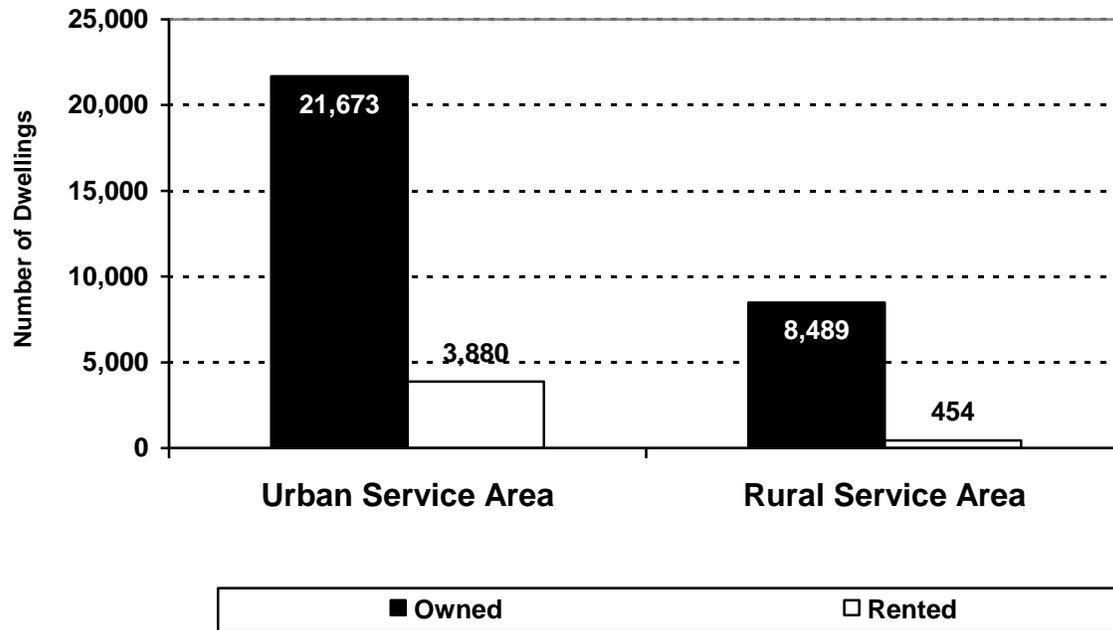

Figure 6
Ownership Status of All Existing Dwellings in Strathcona County (2018)

Census Highlights – Ownership Status of All Existing Dwellings

- Of the residents who provided information on ownership, it was found that the majority of dwellings in Strathcona County are owned (87.4%). This breaks down to an 84.8% ownership in the Urban Service Area and 94.9% in the Rural Service Area.
- With respect to the total number of dwellings, there were 2,447 instances where the ownership of a dwelling was not stated by the resident(s), which amounted to 8.7% of all dwellings in the County.
- A depiction of the number of occupied dwellings can be found in Figure 7 (on the next page of this report).

Figure 7
Ownership Status of Occupied Dwellings in Strathcona County (2018)

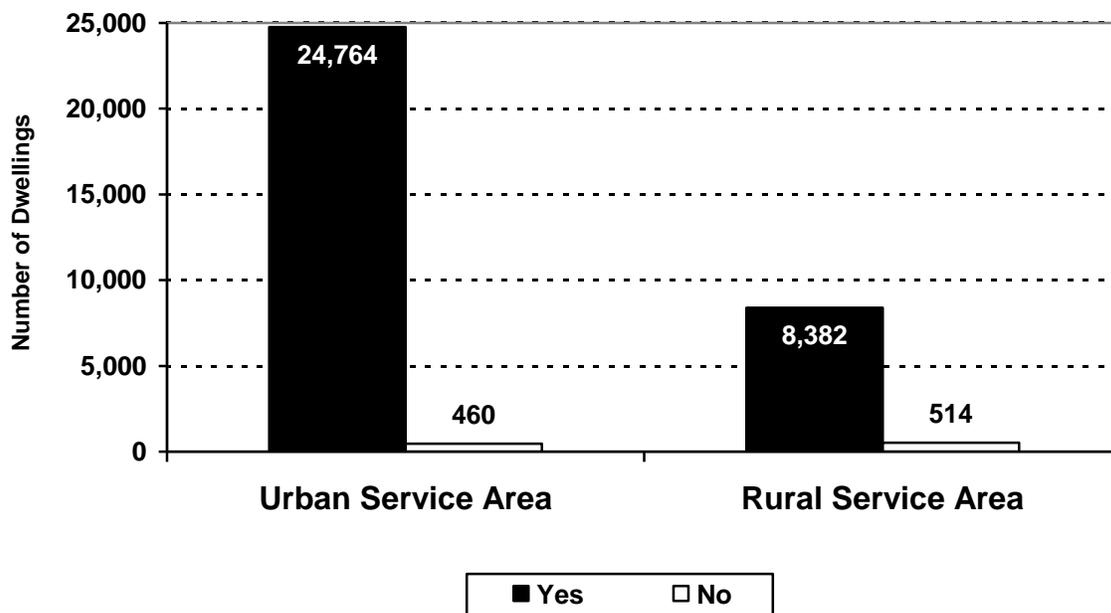

Census Highlights – Ownership Status of Occupied Dwellings

- Of the residents living in occupied dwellings in Strathcona County who provided information on ownership, the majority are owned (87.4%). This breaks down to an 84.8% ownership in the Urban Service Area and 94.9% in the Rural Service Area.
- With respect to the total number of occupied dwellings, there were 1,787 instances where the ownership of a dwelling was not stated by the resident(s).

Internet Access in Occupied Households

The number of households that currently have (or do not have) Internet access within their dwellings in the rural and urban portions of Strathcona County is depicted in Figure 8. Please note that those living in dwellings within the Urban Service Area who do not have Internet access have made a conscious choice not to have the Internet, as suppliers of the service are readily available in this geographic portion of Strathcona County.

Figure 8
Internet Access in Occupied Dwellings in Strathcona County (2018)

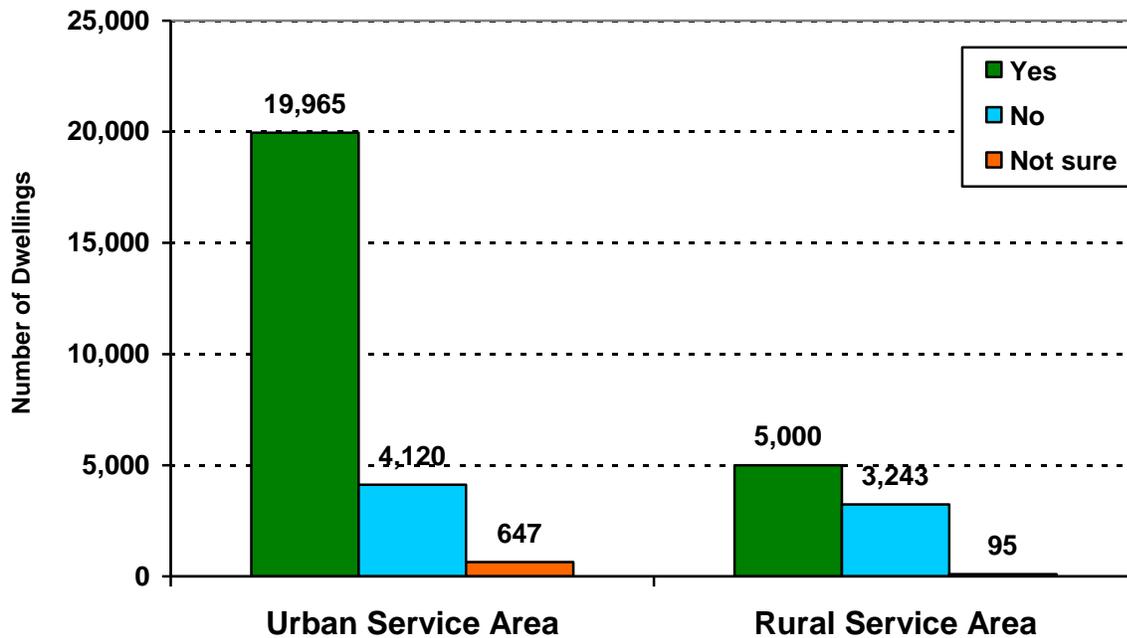

Census Highlights – Internet Access

- Of the residents living in occupied dwellings in Strathcona County who provided information on having Internet access, 33,146 households (97.1%) had an online connection. This breaks down to online access by 98.2% occupied households in the Urban Service Area and 94.2% in the Rural Service Area.
- With respect to the total number of occupied dwellings, there were 2,768 instances where the status of Internet access was not stated by the resident(s). This amounted to 10.4% of all occupied dwellings across the County where no information on Internet access was provided.
- A depiction of the satisfaction with Internet speed can be found in Figure 8 (on the next page of this report) by those households who indicated that they had an online connection.

Residents who had Internet access were then asked to indicate if they were satisfied with the speed of the Internet. The results are depicted in Figure 9. Please note that this data is based on perceptions that individuals have with their Internet service, and is not an indicator of the subscribed speed that they actually have.

Figure 9
Satisfaction with the Speed of the Internet Service in Occupied Dwellings in Strathcona County (2018)

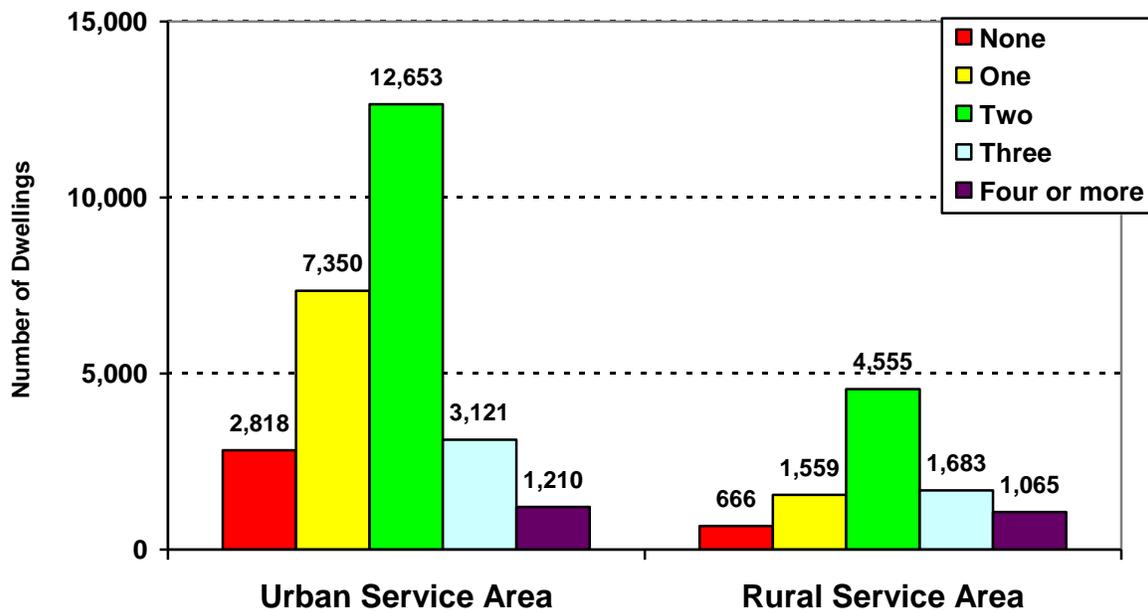

Census Highlights – Speed of the Internet

- It can be seen from Figure 9 that the majority of residents living in the Urban Service Area are satisfied with the speed of their internet connection. From a percentage perspective, 80.7% were satisfied, 16.7% were not, while the remaining 2.6% were not sure.
- With respect to residents living in the Rural Service Area, satisfaction with the speed of their internet connection was considerably lower. From a percentage perspective, 60% were satisfied, 38.9% were not, while the remaining 1.1% were not sure.
- This figure excludes 2,608 households from the Urban Service Area (9.5%) and 1,210 households from the Rural Service Area (12.7%) that did not answer this question – in most cases, this is because the household did not have an Internet connection.

Number of Vehicles

The number of vehicles owned by households in the rural and urban portions of Strathcona County as of May 1, 2018 is depicted in Figure 10.

Figure 10
Number of vehicles owned by occupied households in Strathcona County

Census Highlights – Number of Vehicles

- The majority of households in Strathcona County have two vehicles that are used daily (46.9%). This breaks down to 46.6% in Urban Service Area and 47.8% in Rural Service Area.
- It can also be seen from Figure 10 that there are households where no vehicles are owned. This breaks down to 10.4% in the Urban Service Area and 7% in the Rural Service Area.
- This figure excludes 188 households from the Urban Service Area and 20 households from the Rural Service Area that did not disclose information about the number of vehicles (if any) that were used by household members.

Household Size

Household size in urban and rural Strathcona County is broken down in Table 7.

Table 7
Household Size*

	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
Households with One Person	6,794	18.4%	5,611	20.5%	1,183	12.4%
Households with Two People	14,118	38.3%	10,150	37.1%	3,968	41.6%
Households with Three People	5,991	16.2%	4,496	16.4%	1,495	15.7%
Households with Four People	6,524	17.7%	4,763	17.4%	1,761	18.4%
Households with Five People	2,447	6.6%	1,702	6.2%	745	7.8%
Households with Six or more People	1,014	2.7%	618	2.3%	396	4.1%
Total Number of Households⁸	36,888	100.0%	27,340	100.0%	9,548	100.0%

* In this table, the symbol “N” refers to the Number of Households

Census Highlights – Household Size

- Percentages shown in this table add up to 100% by columns.
- The data presented in this table is based on occupied households that are classified as private households. A private household is defined as either a single person, a family with two or more persons, or a shared accommodation arrangement (e.g. two or more non-related people sharing a dwelling).
- This table includes those people living within *collective dwellings*. A collective dwelling refers to a setting that fulfills a particular purpose or function within the community, most often in some form of assisted living. For example, collective dwellings in Strathcona County can be nursing homes, senior citizen homes, or homes for physically or mentally challenged individuals. Hutterite colonies in the Rural Service Area are also classified as collective dwellings.
- In 2018, there were 489 occupied residences classified as collective dwellings in Strathcona County.⁹ The number of people residing within a collective dwelling range ranged from 1 person to 118 people. Of all the collective dwellings, 11 of

⁸Collective dwellings were not excluded from the numbers noted in this table.

⁹ 483 of the collective dwellings were in the Urban Service Area, while 6 were part of the Rural Service Area.

- these had 10 or more people residing in them. Many of the larger collective dwellings consisted of individual apartments where seniors lived independently.
- The average household size (excluding those living in *collective dwellings*) in the Urban Service Area is 2.61 people. Since in reality we cannot have a portion of a person living in a household, in the Urban Service Area, the median household size¹⁰ is 2 people.
 - The average household size in the Rural Service Area is 2.82 people. The median household size is 2 people.
 - A breakdown of household size within the Rural Service Area is as follows:
 - Country residential households have an average size of 2.95 people, with a median of 3;
 - Farms have an average size of 2.60 people, with a median of 2; and
 - Hamlets have an average size of 2.55 people, with a median of 2.
 - The reason that collective dwellings are excluded from the calculation of average household size is that the number of people in these settings is often large, and will distort the average household size figures.

¹⁰ The median is the middle score, or the 50th percentile point of the distribution of households. What this means is that 50% of the households in the Urban Service Area are above the median (or have more than 2 people), while 50% of the households are below the median (or have less than 2 people).

C. Individual Resident Statistics

Length of Residency

In 2018, residents were asked how long they have lived within Strathcona County. An overall breakdown of the length in time residents have lived in either the Urban Service Area or the Rural Service Area is shown in Table 8.

Table 8
Length of Residence within Strathcona County*

	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
Less than 2 years	8,365	9.3%	6,434	9.9%	1,931	7.7%
2 to less than 5 years	11,855	13.2%	8,855	13.6%	3,000	12.0%
5 to less than 10 years	14,921	16.6%	11,112	17.1%	3,809	15.2%
10 or more years	54,962	61.0%	38,646	59.4%	16,316	65.1%
Total Number of People	90,103	100.0%	65,047	100.0%	25,960	100.0%

* In this table, the symbol “N” refers to the Number of People.

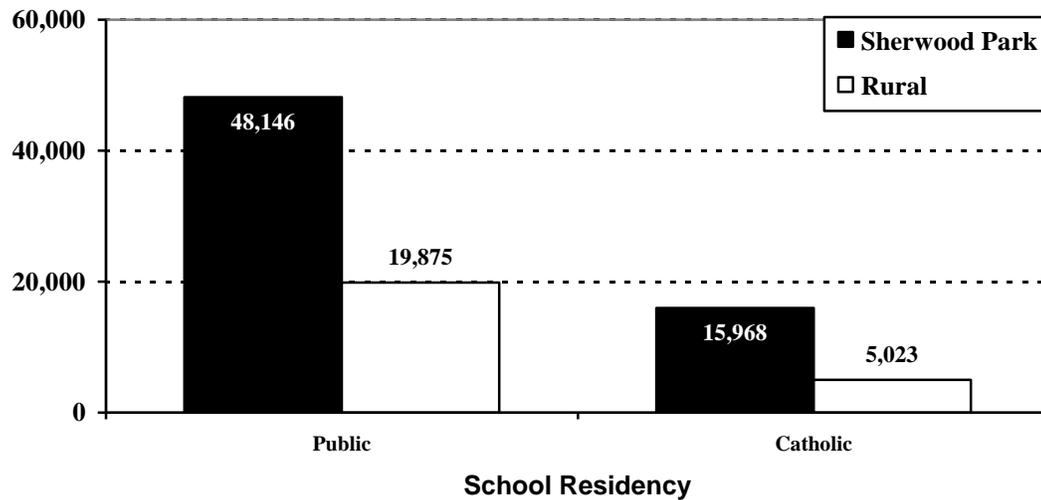

Census Highlights – Length of Residence

- The majority of Urban Service Area and Rural Service Area residents have lived in Strathcona County for 10 or more years.
- Percentages add up to 100% by columns. The percentage figures in Table 8 exclude those people whose length of residence was not stated.
- The length of residency for 8,278 residents was not reported. In the Urban Service Area, this information was not known for 6,285 people and for the Rural Service Area, 1,089 people.

School Support

The school support (faith) of Strathcona County residents for 2018 is shown in Figure 11 by location of resident.

Figure 11
School Support in Strathcona County

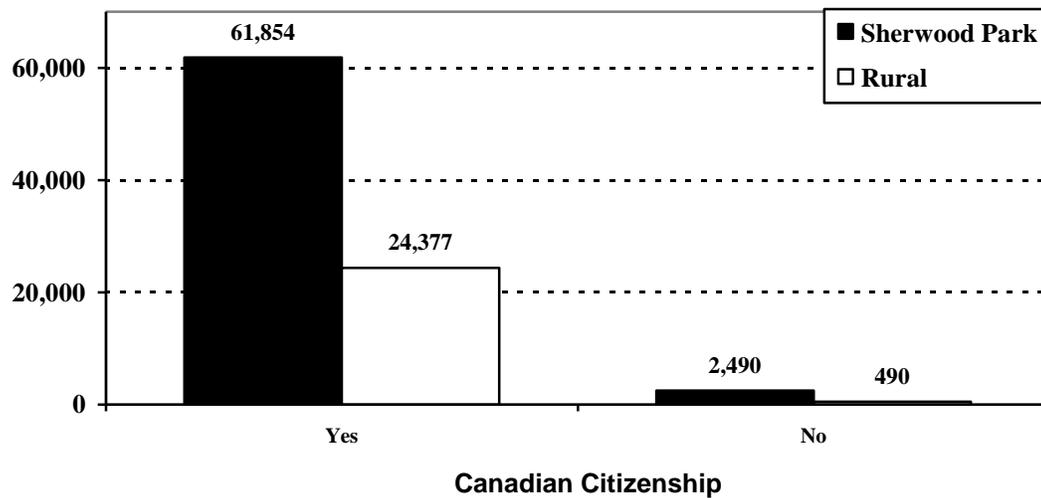

Census Highlights – School Residency

- This data is based on the type of school system supported by household residents.
- More residents support the public system over the Catholic system. For the County as a whole, 68,021 residents supported the public system, while 20,991 supported the Catholic system. School support was not stated by 9,369 residents.
- In terms of percentage comparisons of those who declared the school system for Strathcona County as a whole, 76.4% of school support was public, while 23.6% was catholic.

Canadian Citizenship

The Canadian citizenship breakdown of Strathcona County residents for 2018 is shown in Figure 12 by location of resident.

Figure 12
Canadian Citizenship in Strathcona County

Census Highlights – Canadian Citizenship

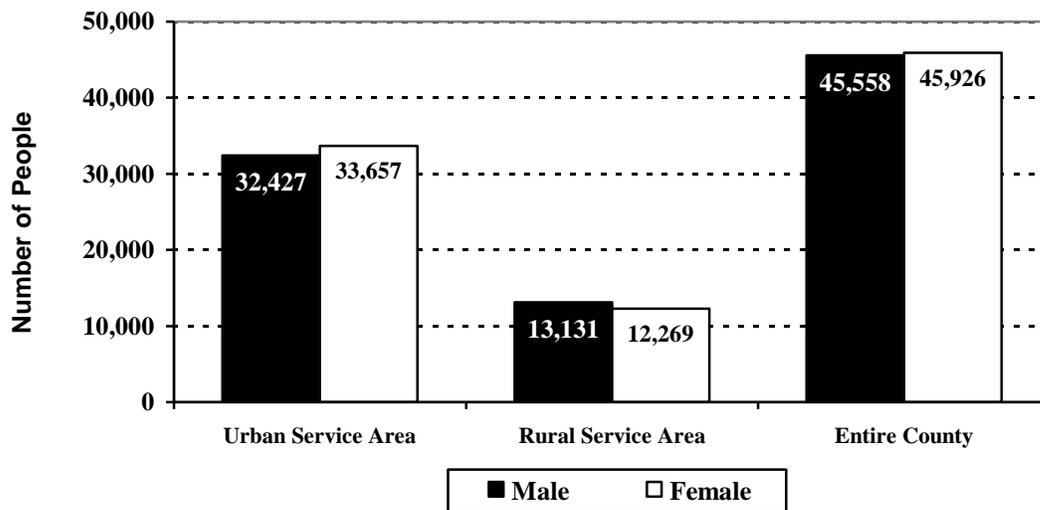

- Most residents in both the Urban Service Area and the Rural Service Area County are Canadian citizens. For the County as a whole, 86,231 residents are Canadian citizens, while 2,980 are not.
- Canadian citizenship status was not known for 9,170 residents.

Gender Comparisons

A breakdown of gender within the Urban Service Area, the Rural Service Area, and Strathcona County as a whole is shown in Figure 13.

Figure 13
Gender Breakdowns in Strathcona County

Census Highlights – Gender

- There is a fairly even split of males and females in all parts of Strathcona County. There are slightly more males in the Rural Service Area and slightly more females in the Urban Service Area.
- There were also 43 instances where an individual chose to identify their gender as “other” throughout Strathcona County. Due to the small number of people that chose this classification, this data is not presented in this section of the report.
- In the Urban Service Area, there were 5,214 instances where the gender of a household member was not stated.¹¹ In the Rural Service Area, there were 1,640 instances where this information was not stated.

¹¹ These shortfalls are either due to circumstances where there was no one available in a household to interview or where limited information was provided during the census data collection period by residents. This is why the total of males and females is less than the total number of people noted earlier in this report. The same reason also applies to age and other demographic questions.

Age Comparisons

A breakdown of age within the Urban Service Area, the Rural Service Area, and Strathcona County as a whole is shown in Table 9.

**Table 9
Age Breakdowns**

Age Groups	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
0-4	3,977	4.4%	3,076	4.7%	901	3.6%
5-9	5,732	6.3%	4,235	6.5%	1,497	5.9%

Census Highlights – Age

- A percentage comparison of age groups between rural and urban Strathcona reveals a similar distribution across the County in most age groups.
- In 2018, the average age of Urban Service Area residents is 39.8 years, while the median age is 40. In 2015, the average age was 38.5 and the median age was 39. What this means is that in the year 2018, the population in the Urban Service Area is growing slightly older. This aging trend has been occurring for some time now.
- In 2018, the average age of people living in the Rural Service Area is 41.3 years, while the median age is 43. In 2015, the average age was 40 and the median age was 45. What this means is that in the year 2018, the population in the rural areas of Strathcona County is getting slightly older, much like the Urban Service Area.
- In terms of averages and medians derived in 2018, the people in the Rural Service Area are slightly older than those living in the Urban Service Area. This has been a trend for several years now.
- In this year's census report, there were 7,497 instances across Strathcona County where the age of a household member was not stated.

Age Breakdowns by Gender – Urban & Rural Service Area

A breakdown of age¹² by gender¹³ for the Urban Service Area and the Rural Service Area is shown in Tables 10 and 11.

Table 10
Age Breakdowns by Gender – Urban Service Area

Age Groups	Urban Service Area		Males		Females	
	N	%	N	%	N	%
0-4	3,068	4.7%	1,511	4.7%	1,557	4.7%

Total	65,387	100.0%	31,996	100.0%	33,391	100.0%

¹² The age groupings depicted in Tables 10 through 11 correspond to Statistics Canada's age categories for easy comparisons. However, different age groupings of this data can be created upon request.

¹³ Please note that 34 people in the "other" category are not included in Table 10. In Table 11, 9 people in the "other" category are excluded.

**Table 11
Age Breakdowns by Gender – Rural Service Area**

Age Groups	Rural Service Area		Males		Females

Census Highlights – Age by Gender

- Table 10 depicts a detailed percentage comparison of age groups by gender for the Urban Service Area. There are similar numbers of males and females within each age group with some minor exceptions. The main difference between the sexes can be seen within the 85 or older age category, where the females considerably outnumber the males. It should also be noted that 85+ age group has the smallest number of residents of all ages in the County.
- A further analysis revealed that the mean age for men in the Urban Service Area was 39.1 years, while the mean age for females was 40.6 years. Median figures show the age midpoint for males being 39, and females being 41 years. The mean ages for males and females are slightly higher than what was found in 2015. The median age for males is one year higher than it was in 2015, while the female median age is two years higher than in 2015.
- Table 11 depicts a detailed percentage comparison of age groups by gender for the Rural Service Area. With some minor exceptions, there are similar numbers of males and females within each age group.
- A further analysis revealed that the mean age for men in the Rural Service Area was 41.5 years, while the mean age for females was 41.1 years. Median figures show the age midpoint for males is 45 and females is 44 years. The mean ages for males and females are both slightly higher than what was found in 2015. The median age for males and females is one year higher than it was in 2015.

Marital Status

A breakdown of marital status within the Urban Service Area, the Rural Service Area, and Strathcona County as a whole is shown in Table 12.

Table 12
Marital Status Breakdowns

Marital Status	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
Never Married	33,661	37.2%	24,749	37.9%	8,912	35.2%
Married	43,681	48.2%	30,216	46.3%	13,465	53.2%
Common Law	5,154	5.7%	3,771	5.8%	1,383	5.5%
Separated/Divorced	5,185	5.7%	4,230	6.5%	955	3.8%
Widowed	2,885	3.2%	2,309	3.5%	576	2.3%
Total	90,566	100.0%	65,275	100.0%	25,291	100.0%

Census Highlights – Marital Status

- In both the Urban Service Area and the Rural Service Area, the majority of residents were married.
- In the Urban Service Area, there were 6,057 instances where the marital status of a household member was not stated.¹⁴ In the Rural Service Area, there were 1,758 instances where this information was not stated.
- Percentages in this table add up to 100% by columns.

¹⁴ These shortfalls are either due to circumstances where there was no one available in a household to interview or where residents did not share this information during the census data collection period.

Employment or Student Status

A breakdown of the employment status of residents within the Urban Service Area, the Rural Service Area, and Strathcona County as a whole is shown in Table 13.

Table 13
Employment Status Breakdowns

Employment Status	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
Full-Time	38,849	43.1%	28,058	43.1%	10,790	42.9%
Part-Time	7,079	7.9%	4,951	7.6%	2,128	8.5%
Child not yet in school	3,966	4.4%	3,076	4.7%	890	3.5%
Student (K-12)	17,182	19.1%	12,349	19.0%	4,833	19.2%
Post-Secondary Student	2,996	3.3%	2,139	3.3%	857	3.4%
Not in the workforce	8,227	9.1%	5,563	8.6%	2,664	10.6%
Retired (age 65 or older)	11,873	13.2%	8,900	13.7%	2,973	11.8%
Total	90,171	100.0%	65,036	100.0%	25,135	100.0%

Census Highlights – Employment Status

- In both the Urban Service Area and Rural Service Area, the majority of residents are working full-time.
- Percentages in this table add up to 100% by columns.
- In the Urban Service Area, there were 6,296 instances where the employment status of a household member was not stated.¹⁵ In the Rural Service Area, there were 1,914 instances where this information was not stated.
- Those classified as *not in the workforce* included residents aged 18 to 64 who were not in school and did not indicate that they were working either full time or part-time. The reasons why they were not in the workforce were not queried, which means that they could be homemakers, currently unemployed, retired, or are not able to work. Residents not in the workforce who are aged 65 or older have been classified as *retired* unless they already stated their work status. Please note that it is possible that a small portion of them would like to work if they could (and thus would be classified as unemployed), but there is no way of determining that for certain at this time.

¹⁵These shortfalls are either due to circumstances where there was no one available in a household to interview or where residents did not share this information during the census data collection period.

- *Children not yet in school* are defined as residents who were under the age of 5 at the time of the census.

Employment Status by Gender

A breakdown of the employment status of residents by gender¹⁶ for the Urban Service Area, the Rural Service Area, and Strathcona County as a whole is shown in Tables 14 to 16.

Table 14
Employment Status Breakdowns by Gender (Total Strathcona County)

Employment Status	Males		Females	
	N	%	N	%
Full-Time	22,804	51.0%	15,955	35.2%
Part-Time	1,758	3.9%	5,312	11.7%
Child not yet in school	1,972	4.4%	1,976	4.4%
Student (K-12)	8,713	19.5%	8,400	18.6%
Post-Secondary Student	1,322	3.0%	1,667	3.7%
Not in the workforce	2,707	6.1%	5,504	12.2%
Retired (age 65 or older)	5,402	12.1%	6,455	14.3%
Total	44,678	100.0%	45,269	100.0%

Table 15
Employment Status Breakdowns by Gender (Urban Service Area)

Employment Status	Males		Females	
	N	%	N	%
Full-Time	16,096	50.7%	11,895	35.9%
Part-Time	1,213	3.8%	3,733	11.3%
Child not yet in school	1,511	4.8%	1,557	4.7%
Student (K-12)	6,253	19.7%	6,040	18.2%
Post-Secondary Student	938	3.0%	1,196	3.6%
Not in the workforce	1,837	5.8%	3,714	11.2%
Retired (age 65 or older)	3,902	12.3%	4,989	15.1%
Total	31,750	100.0%	33,124	100.0%

¹⁶ These tables exclude the employment status of residents that identified their gender as “other” due to the low number of people who identified themselves this way.

Table 16
Employment Status Breakdowns by Gender (Rural Service Area)

Employment Status	Males		Females	
	N	%	N	%
Full-Time	6,708	51.9%	4,060	33.4%
Part-Time	545	4.2%	1,579	13.0%
Child not yet in school	2,460	19.0%	2,360	19.4%
Student (K-12)	461	3.6%	419	3.4%
Post-Secondary Student	384	3.0%	471	3.9%
Not in the workforce	870	6.7%	1,790	14.7%
Retired (age 65 or older)	1,500	11.6%	1,466	12.1%
Total	12,928	100.0%	12,145	100.0%

Census Highlights – Employment Status by Gender

- Overall, it can be seen from Table 14 that across Strathcona County, considerably more males work full-time compared to females, while the proportion of females who work part-time is greater than males. This has been a trend for several years.
- The work patterns based on gender show a similar pattern for residents who live in the Urban Service Area (Table 15) and those who live in the Rural Service Area (Table 16).
- A larger proportion of females are not in the workforce (compared to males), regardless of where they resided within the County. This has also been a trend for several years.
- Percentages in each table add up to 100% by columns.

Employment Location – Overall Results

A breakdown of employment location within the Urban Service Area, the Rural Service Area, and Strathcona County as a whole is shown in Table 17.

Table 17
Location of Work / School

Location	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
In Strathcona County	31,785	49.8%	23,211	50.5%	8,574	47.9%
Outside Strathcona County	32,026	50.2%	22,715	49.5%	9,311	52.1%
Total	63,881	100.0%	45,926	100.0%	17,885	100.0%

Census Highlights – Employment Location

- The data in this table excludes children who are not yet in school, those not in the workforce, and those who are retired. In both the Urban Service Area and the Rural Service Area, there was an almost even split between residents working or going to school either inside or outside Strathcona County.
- Percentages in this table add up to 100% by columns.

Employment Location – Based on Work Patterns

A breakdown of where residents worked full-time or part-time is shown in Tables 18 and 19.

Table 18
Location of Work for those working Full Time

Location	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
In Strathcona County	13,202	34.2%	9,658	34.5%	3,574	33.4%
Outside Strathcona County	25,408	65.8%	18,286	65.5%	7,122	66.6%
Total	38,610	100.0%	27,914	100.0%	10,696	100.0%

Table 19
Location of Work for those working Part Time

Location	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
In Strathcona County	4,057	57.7%	2,930	59.6%	1,127	53.4%
Outside Strathcona County	2,975	42.3%	1,990	40.4%	985	46.6%
Total	7,032	100.0%	4,920	100.0%	2,112	100.0%

Census Highlights – Work Locations

- In Table 18, of the residents who worked full time, it can be seen that almost two-thirds of Urban Service Area and Rural Service Area residents worked outside of Strathcona County.
- In Table 19, of the residents who worked part time, it can be seen that there was a slight leaning of both urban and rural residents to do their part time work in locations within Strathcona County.
- Percentages in both tables add up to 100% by columns.

Employment Location – Based on School Patterns

A breakdown of where residents went to K-12 or post-secondary school is shown in Tables 20 and 21.

Table 20
Location of School for Students attending K-12

Location	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
In Strathcona County	14,245	93.4%	10,433	94.9%	3,812	89.7%
Outside Strathcona County	999	6.6%	559	5.1%	440	10.3%
Total	15,244	100.0%	10,992	100.0%	4,252	100.0%

Table 21
Location of School for those pursuing Post-Secondary Education

Location	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
In Strathcona County	281	9.6%	220	10.5%	61	7.4%
Outside Strathcona County	2,644	90.4%	1,880	89.5%	764	92.6%
Total	2,925	100.0%	2,100	100.0%	825	100.0%

Census Highlights – School Locations

- In Table 20, almost all of the Urban Service Area and Rural Service Area students went to schools within parts of Strathcona County.
- In Table 21, almost all of the Urban Service Area and Rural Service Area post-secondary students pursued their education in locations outside Strathcona County.
- Percentages in both tables add up to 100% by columns.

Driver's License Status

A breakdown of who has a driver's license (including those with learner's permits) within the Urban Service Area, the Rural Service Area, and Strathcona County as a whole is shown in Table 22.

Table 22
Driver's License Status

Driver's License	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
Yes	68,784	76.3%	48,854	75.1%	19,930	79.3%
No	21,395	23.7%	16,180	24.9%	5,215	20.7%
Total	90,179	100.0%	65,034	100.0%	25,145	100.0%

Census Highlights – Driver's License

- In both the Urban Service Area and Rural Service Area, the majority of residents have some sort of driver's license.
- There were 8,202 instances across Strathcona County as a whole where the status of a driver's license was not stated. This includes those who did not provide an answer to the question as well as those residents who were under the age of 14 and were not eligible for one.
- Percentages in this table add up to 100% by columns.

Volunteer Status

A breakdown of volunteer status within the Urban Service Area, the Rural Service Area, and Strathcona County as a whole is shown in Table 23.

Table 23
Volunteer Status

Volunteer	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
Yes	19,655	21.9%	13,741	21.2%	5,914	23.6%
No	70,044	78.1%	50,951	78.8%	19,093	76.4%
Total	89,699	100.0%	64,692	100.0%	25,007	100.0%

Census Highlights – Volunteer Status

- In both the Urban Service Area and Rural Service Area, less than 25% of residents do some sort of volunteering.
- In the Urban Service Area, there were 6,640 instances where the volunteer status of a household member was not stated.¹⁷ In the Rural Service Area, there were 2,042 instances where this information was not stated.
- Percentages in this table add up to 100% by columns.

¹⁷ These shortfalls are either due to circumstances where there was no one available in a household to interview or instances where residents did not provide this information during the census data collection period.

Primary Mode of Transportation

A breakdown of the primary mode of transportation within the Urban Service Area, the Rural Service Area, and Strathcona County as a whole is shown in Table 24.

Table 24
Primary Mode of Transportation

Mode of Transportation	Total Strathcona County		Urban Service Area		Rural Service Area	
	N	%	N	%	N	%
Vehicle	81,094	90.1%	57,097	87.9%	23,997	95.6%
Public Transit	4,236	4.7%	3,915	6.0%	321	1.3%
Other	4,702	5.2%	3,918	6.0%	784	3.1%
Total	90,032	100.0%	64,930	100.0%	25,102	100.0%

Census Highlights – Mode of Transportation

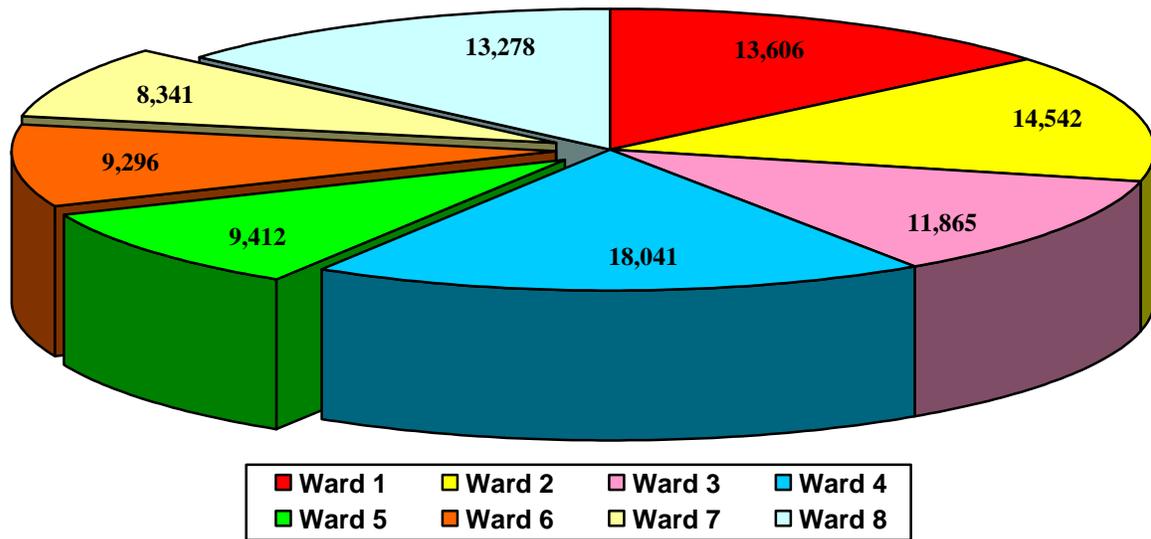

- In both the Urban Service Area and Rural Service Area, the majority of residents got around through the use of a vehicle.
- In the Urban Service Area, there were 6,402 instances where this question was not answered.¹⁸ In the Rural Service Area, there were 1,947 instances where this information was not stated.
- Percentages in this table add up to 100% by columns.

¹⁸ These shortfalls are either due to circumstances where there was no one available in a household to interview or instances where residents did not provide this information during the census data collection period.

D. Population by Wards

A breakdown of the total number of residents in each ward is depicted in Figure 14. Wards 1, 2, 3, 4, and 8 are located in the Urban Service Area; wards 5, 6 and 7 are located in the Rural Service Area.

**Figure 14
Ward Breakdowns in Strathcona County for 2018**

E. Neighborhoods in the Urban Service Area

A breakdown of the total number of residents, along with the number of dwellings for each neighbourhood found in the Urban Service Area is summarized in Table 25 on the next page. The neighbourhoods are also grouped into wards. It should be noted that some of the boundaries separating neighbourhoods in the Urban Service Area is subjective, since with rare exceptions, there are no official boundaries establishing distinctive neighbourhoods. Furthermore, two neighbourhoods cross over into two different wards, as marked with an asterisk* within Table 25.¹⁹

Please note that all of the non-residential properties listed in Tables 25, 26 and 27 were unoccupied.

A more detailed breakdown of both rural and urban enumeration areas can be found in Appendix A of this report.

¹⁹ The “Broadmoor Estates/Centre in the Park” neighbourhood is part of Wards 1 and 2; the “Davidson Creek” neighbourhood is part of Wards 2 and 4.

Table 25
Neighborhood Population Breakdowns - Urban Service Area

Neighborhood	Total # of People	Total # of Dwellings	Dwelling Status			
			Occupied	Vacant	Under Construction	Non Residential
