

## Financial Reserves

---

### Policy Statement

---

A Reserve Policy is a prudent business practice that will enhance Strathcona County's financial strength, flexibility, cash flow management, and ability to achieve the Council Vision and the Strategic Plan priorities.

A Reserve Policy is required to establish, maintain and manage Reserve funds that:

- maintain and improve Strathcona County's working capital requirements;
- provide for future funding requirements; and
- provide stabilization for fluctuations in operating and capital activities.

### Purpose

---

The purpose of this policy is to maintain consistent standards and guidelines for the management of Reserves and execution of Reserve Transactions, and to ensure that all Reserve Transactions are approved by Council and carried out in accordance with Council's approval.

### Definitions

---

1. **Committed Balance** - Funding approved as per FIN-001-024: Financial Reserves policy to be applied towards specific expenditures.
2. **Designated Balance** - Funding designated to Reserves for a specific purpose, which has not yet been approved by Council to be applied towards specific expenditures.
3. **Infrastructure Lifecycle, Maintenance and Replacement Reserves** – A Reserve roll up category for reporting which captures all Reserves that tie to Infrastructure Lifecycle, Maintenance and Replacement of Strathcona County tangible capital assets.
4. **Optimal Balance** – Where applicable, Reserves will require a minimum or maximum recommended balance for the Reserve. These recommendations will be a formula based on adequate levels to maintain services as determined by departments, endorsed by Executive Team, and approved by Council. Schedule “A” of the policy will provide a listing of the Reserve Descriptions and their recommended formulas, if applicable.
5. **Projects Reserves** – A Reserve roll up category for reporting which captures all Reserves that tie to the non-cyclical Reserve needs of departments including operating and capital projects.
6. **Redesignation of Reserve Funds** – The process to change the purpose of Reserved funds from one Reserve to another.

7. **Release of Reserve Funds** – Reserve funds for which the purpose has been fulfilled or changed and is consequently closed. Any funding resulting from the release of a Reserve will be identified for redesignation to another Reserve or general surplus.
8. **Reserve** – Reserves are created when funds are set aside (designated) for a future purpose. Funds within a Reserve are restricted and will be applied as outlined in the approved Reserve Description.
9. **Reserve Description** – A listing of Reserve Descriptions is found in Schedule “B” of this policy. Each Reserve Description contains the following:
  - the overall purpose of the Reserve;
  - the source of the Reserve funds;
  - when the Reserve can be accessed (the application);
  - a reference to Schedule “A” for the Optimal Balance formula, if applicable;
  - the duration; and
  - interest entitlement.
10. **Reserve Transaction** – The following activity is considered a Reserve Transaction:
  - contributions to the Reserve from internal or external sources
  - withdrawals from the Reserve to fund expenditures
  - Redesignation of the Reserve Funds
  - Release of the Reserve Funds.
11. **Special Purpose Reserves** – A Reserve roll up category for reporting which captures unique Reserves that have a one to one relationship with the Reserve Description. For these Reserves, a policy is in place as referenced in the Reserve Description, or external influences are a factor.
12. **Stabilization and Contingency Reserves** - A Reserve roll up category for reporting which captures all Reserves that maintain funds to aid in stabilizing and smoothing the temporary impact of unforeseen events, or planned fluctuations in activity.

## Guidelines

---

1. All Reserve Transactions will be ratified by Council.
2. All Reserves will be administered in accordance with current municipal policies and the Public Sector Accounting Standards.
3. All Reserves must fall under an approved Reserve Description. The establishment of a new Reserve, which will require a new Reserve Description, must be approved by Council.
4. Reserves will be funded from internal or external sources as defined in the Reserve Descriptions.
5. Funding to and from the Reserve will be approved through Council via:
  - existing municipal policies;
  - the annual budget process;
  - the year end Reserve request and approval process;
  - the approved Reserve Description; or
  - Council resolution.
6. If Reserve Transactions have not been approved through any of the above means, approval must be obtained prior to a transaction occurring from:

- The Chief Commissioner for projects totaling \$75,000 or less;
  - Council for projects greater than \$75,000.
7. As part of the year end Reserve request and approval process, any potential Release of Reserve Funds or Redesignation of Reserve Funds will be identified.
  8. As part of the year end process for Reserves that have Optimal Balances, an assessment will be made between the actual designated Reserve balance and the recommended Optimal Balance. Reserves which are lower than their established Optimal Balance will be considered in the distribution of the annual operating surplus. Reserves which exceed their established Optimal Balance will be considered for Redesignation. Strategies to maintain the Optimal Balance will be addressed through the business plan and budget cycles. Schedule "A" details the formula calculations to be used in determining the Optimal Balance for the reserves that have been identified to require an Optimal Balance.
  9. Interest earnings will be applied to the Reserves which have been deemed interest bearing as indicated in the Reserve Description.
  10. Reporting
    - Regular reporting on the Reserves will occur through the quarterly management report. The quarterly reporting will indicate the total of Reserves as grouped in the four Reserve roll up categories, and will include the current balance, segregated between Committed Balance and Designated Balance.
    - The Consolidated Financial Statements of the County report Reserves within accumulated surplus, along with equity in tangible capital assets and unrestricted surplus (deficit).

Financial Reserves – Description R10	
Type:	Municipal
Roll up Category:	Special Purpose Reserves
Name:	Municipal Levy Debt Repayment Reserve
Purpose:	To set aside funds for the repayment of approved municipal levy supported debentures.
Source of Funding:	This Reserve will be funded from off-site developer levy revenues for approved levy debt. By virtue of this Reserve Description, municipal levy developer revenue is authorized to be transferred to the Municipal Levy Debt Repayment Reserve in accordance with approved capital project funding, municipal levy debt bylaws or to repay interim financing.
Optimal Balance:	See Schedule A
Application:	<p>This Reserve will be used to repay the principal and interest of outstanding approved levy debentures over the term of the debt, in accordance with approved municipal levy debt (borrowing) bylaws.</p> <p>Transition:  This reserve results from a change in accounting treatment for off-site developer levy revenue. To allow for this transition, it may be necessary to interim finance some levy funded capital projects due to timing differences between collection of developer levy funds and approved expenditures. By virtue of this reserve description, Municipal Levy Debt Repayment Reserve funds are authorized to provide interim financing for those levy funded capital projects that are approved up to February 25, 2014, as required. If interim financing is provided, as municipal developer levy revenue is collected, these funds will be transferred to the Municipal Levy Debt Repayment Reserve to repay any interim financing as a first priority.</p>

By virtue of this Reserve Description, utility levy developer revenue is authorized to be transferred to the Utility Levy Debt Repayment Reserve in accordance with the approved capital project funding, utility levy debt bylaws or to repay interim financing.
Optimal Balance:	See Schedule A
Application:	<p>This Reserve will be used to repay the principal and interest of outstanding approved levy debentures over the term of the debt, in accordance with approved utility levy debt (borrowing) bylaws.</p> <p>Transition:  This reserve results from a change in accounting treatment for off-site developer levy revenue. To allow for this transition, it may be necessary to interim finance some levy funded capital projects due to timing differences between collection of developer levy funds and approved expenditures. By virtue of this reserve description, Municipal Levy Debt Repayment Reserve funds are authorized to provide interim financing for those levy funded capital projects that are approved up to February 25, 2014, as required. If interim financing is provided, as municipal developer levy revenue is collected, these funds will be transferred to the Municipal Levy Debt Repayment Reserve to repay any interim financing as a first priority.</p>
