## Beaver Hills Biosphere Day

The Beaver Hills is a distinct landscape within Strathcona County, and is one of only two UNESCO biospheres in Alberta.

The Beaver Hills initiative promotes conservation of the distinct landscape, biodiversity, socio-economic and cultural integration that fosters sustainable development throughout the lived-in and working landscape of the Beaver Hills.

Strathcona County has taken action to conserve and enhance the Beaver Hills by supporting the Beaver Hills Initiative and the UNESCO designation of Beaver Hills as a Biosphere.

Public education about the distinctiveness of the Beaver Hills and importance of the Beaver Hills Biosphere designation is essential, and is accomplished through celebrating the status of the Beaver Hills Biosphere.

**NOW THEREFORE** I, Mayor Rod Frank, do hereby proclaim September 9, 2018 as "Beaver Hills Biosphere Day" in Strathcona County.

Dated this 16 day of August, 2018.

Signed by  
Rod Frank, Mayor
