

# Strathcona County

## World Water Day

The United Nations recognizes March 22 of every year as World Water Day. The theme for 2018 is "Nature for Water" – exploring nature-based solutions to the water challenges we face in the 21<sup>st</sup> century.

Canada is home to some of the largest, most beautiful and economically significant rivers and lakes in the world.

Governments, industry and residents in our communities play a role in preventing pollution and protecting the natural environment while enjoying a high quality of life.

World Water Day increases public awareness that we need to take care of, protect and restore freshwater ecosystems in and near our communities.

**THEREFORE** I, Mayor Rod Frank, do hereby proclaim the 22<sup>nd</sup> day of March as World Water Day in Strathcona County.

Dated this 6 day of March, 2018.

Signed by  
Rod Frank, Mayor
