## International Day of Persons with Disabilities

---

The International Day of Persons with Disabilities on December 3 is a time to recognize and celebrate the contributions of all persons with disabilities in our community.

The theme for this year is “not all disabilities are visible”. It is important to raise awareness that some disabilities are invisible - such as mental health conditions, chronic pain or fatigue. This does not make them less impactful.

By recognizing this day, Strathcona County underscores the importance of building a safe, supportive and accessible community where all persons can thrive. This includes persons with visible and invisible disabilities. Strathcona County is a community where all are valued, and experience belonging and respect.

THEREFORE I, Mayor Rod Frank, do hereby proclaim December 3, 2022 International Day of Persons with Disabilities.

Dated this 29<sup>th</sup> day of November, 2022.

Signed by

Rod Frank, Mayor
