

# South of Wye ARP Project

## STRATHCONA COUNTY

### Project update

Thank you again for your participation so far in the South of Wye ARP Project!

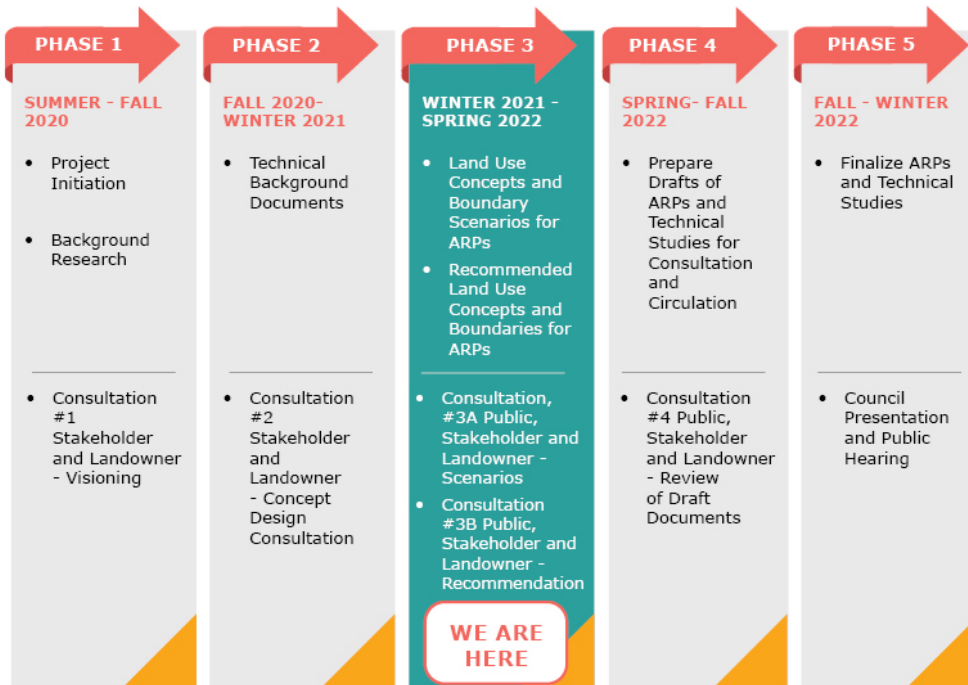

It has been a while since our last phase of public engagement, and we wanted to touch base and provide an update!

We are currently working on drafting a recommended land use concept in accordance with the feedback that we received, and we are continuing to work in the background on technical items related to utilities and transportation.

Given this ongoing work, we have made some updates to the Project timeline, and are now expecting to tentatively present the draft recommended land use concept to the public for review and feedback in the spring of 2022.

### Updated project phase timeline

#### South of Wye ARP Project Phases

### Priorities Committee Meeting

After the Phase 3A engagement, we provided an overview of the three potential land use concept scenarios, as well as the Phase 3A public engagement results to the Strathcona County Priorities Committee on June 22, 2021. If you would like to watch the Priorities Committee Meeting, please visit the [June 22, 2021 Priorities Committee Meeting Agenda page](#).
