

Winter Roads Updates

Watch for orange signs

Snow clearing on Priority 3 collector roads will be complete tonight, and County crews will start clearing Priority 4 residential streets on **Sunday, January 8 at 6 p.m.**

Watch for large orange “No Parking” signs in your neighbourhood that include dates for when parking is not permitted. Signs will be posted at least 24 hours before scheduled snow clearing in each area.

Vehicles parked on a residential street during the posted timeframe are subject to a \$250 ticket and tow. Parking is allowed after the snow has been windrowed and removed.

Crews will be working 24/7, and residential street snow clearing will be complete within 10 days (by January 18). If there is a snowfall event during the process and crews need to clear roads with higher traffic volumes, residential street snow removal may be delayed.

Where to park

When residential clearing is underway, residents can park on [any collector road](#) marked with a permanent sign that states “snow route when declared”, as these roads will have already been cleared.

Clearing order and progress

A clearing order is available on the website and online maps will show the progress of snow clearing in each neighbourhood.

Waste collection reminder

If snow is scheduled to be cleared on the waste collection day for your neighbourhood, place your roll-out cart at the end of your driveway, and not on the road or sidewalk.
